NEW YORK, Nov. 19 .- The stock market to-day was under the continued influences and factors which depressed values yesterday and discouraged speculation for an advance. PRICES STEADY AND FIRM AND TRADE IN LARGE VOLUME.

Prospects Good for a Plentiful Supply of Turkeys-Grain Markets Are Steady and Strong.

The oldest in term of service among the wholesale merchants say that in their business careers they have seldom known trade to be as satisfactory and prices to rule as steady as during the present month. Usually in November there is a weaker tone to prices in many lines, but the tendency is to the contrary this year. Dry goods, drugs, leather, iron and steel products and staple groceries have carried a very firm tone unless it be in sugars, which have fluctuated in less than a half-a-cent-per-pound limit at any time for many months. Flour presents a singular phase. One of the millers said, yesterday, he had never known prices in a jobbing way to continue as steady as for some months past, and one thing that has been conducive to this condition is the fact that bran and milling feed are selling at higher prices than ever before. Twenty dollars a ton or one cent a pound certainly is a high figure for milling products, aside LIVERPOOL, Nov. 19 .- Wheat steady; No. 2 from the flour itself.
